Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 44-60 drawn to a damper with a body member and movable member in a form of a removable cartridge with micro switch.

Group II claim(s) 60-64 drawn to damper with no body and movable member with solenoid instead of micro switch.

Claims 65-67 will be examined along with claims chosen from one of the Group I or II.

The Invention listed as Groups I and II do not relate to a single general inventive concept under Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding features for the following reasons: the feature of the Group I invention is a damper with a body member and movable member in a form of a removable cartridge with micro switch claimed therein which is not present in Group II. The feature of Group II invention is a specific claimed structure of the damper apparatus, which is not present in Group I.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

Art Unit: 3749

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
